SKILLS

FRONTEND & CORE

Next.js | SvelteKit | React | Tailwind CSS

BACKEND & DATA

Node.js | MongoDB | Better Auth

EXPERIENCE

SME / Digital CS Agent
Teleperformance · Sep 2023 - Present

FEATURED PROJECTS

AVENCODE

Interactive Learning Platform · JavaScript & Data Structures

Browser-based course that teaches JavaScript, DOM, Canvas and data structures by building a Pixel Art Editor from scratch.

- Built lesson player and live playground with CodeMirror 6 editor, sandboxed iframe preview with console bridge, and lesson routing.
- Designed 18-lesson curriculum from DOM collapse (16,384 nodes) to Canvas rescue, typed memory, DFS/BFS and ring buffers, guarded by node:test content invariants.

SvelteKit | Tailwind CSS | CodeMirror

CONTACO

SaaS Platform · Tax Management for SMBs

Web application concept aimed at guiding small business owners through tax

EDUCATION

Economics
National Autonomous University of Mexico (UNAM)

LANGUAGES

Spanish · Native

English · Bilingual / Professional

compliance and omnichannel sales reporting.

- Developed modular user interfaces using SvelteKit and Tailwind CSS.
- Built interactive components for step-by-step SAT filing guides and batch invoicing management.

SvelteKit | MongoDB | Better Auth

FINCHECK

Personal Finance App · Budgeting

Spanish-language personal finance dashboard for income/expense tracking, category budgets with alerts, 50/30/20 rule, compound-interest simulator, and MX-localized investment guides (CETES, SOFIPOs, ETFs, FIBRAs, PPR).

- Built full-stack app with Next.js 16 App Router + React 19, Google-only Better Auth, and per-user MongoDB isolation.
- Implemented deterministic finance engine (totals, budget alerts, health score, rule-based advice) with validated API routes and Zustand optimistic updates.

Next.js | MongoDB | Zustand
